Zortex v1.0 – Game Manual & Description

Game Title **Release date**

Zortex 04-02-2026

Version

v1.0 (Base / Initial Release)

Genre

Classic arcade-style top-down space shooter with endless survival gameplay

Overview

While *exploring the universe that humans never imagined*, you pilot a sleek spaceship through an endless cosmos filled with mystery and danger. Deal with drifting asteroids and aggressive Devil aliens that chase you down and fire back. Your mission is to survive as long as possible by destroying threats while navigating the vast, wrapping space.

Main Features (v1.0)

- Fullscreen gameplay
- Intuitive WASD / Arrow key controls
- Shooting with cooldown
- Asteroids that drift and spin
- Devil aliens that chase you and shoot back
- Lives system (start with 3)
- Score counter
- Explosions on destruction
- Game Over with direct restart option
- Controls & Credits screen
- Simple, addictive survival loop

How to Play – Controls

Action	Keyboard Controls	Description
Rotate left	A / Left Arrow	Turn your ship counterclockwise
Rotate right	D / Right Arrow	Turn your ship clockwise
Thrust / Move forward	W / Up Arrow	Accelerate in the direction you're facing
Shoot	SPACE	Fire laser projectiles (with fire rate limit)
Quit game	ESC	Exit the game at any time
Restart after death	R	Immediately start a new game after Game Over

Note: The ship has inertia — it keeps drifting after you stop thrusting, just like classic Asteroids-style games.

Objective & Scoring

Primary Goal: Survive as long as possible while exploring the universe

Scoring:

- Destroy asteroid → +15 points
- Destroy Devil alien → +90 points

The longer you survive, the faster asteroids and aliens spawn.

Technical Notes (for players)

- Runs in fullscreen mode
- Screen wraps around (endless space feel)
- No save system in v1.0 (high scores are not saved yet)
